## White-Black Projection Film

Product Name: White-Black Projection Film

Item: UTM002

Introduction: It may also be called tensile projection fabric. It is made of multi-layer flame-resisting black?white PVC, the surface of which is treated with embossing and coating. After the treatment of special technology, the PVC material is free from extraneous odour and color change. Besides, the fabric has excellent anti- static ability, flexibility and resiliency.

Recommended Working Temperature: -20??+40?

Width: 2.2m/2.5/3.2m

Application: Fix Frame Screen, Auto-masking Fixed Frame Screen, Tensioned Motorized Screen, Quick Fold Screen, etc.

Function: The image is natural, clear and real. The fabric is cleanable and bright and it is anti-mildew and anti-static. The view angle is 100 (L?R 50 ) and the gain is 1.1. The flame resistance is in accordance with GB17591-2006 B2. The fabric stretches vertically and has no turned edge or lines made by folding. Besides, the fabric will not turn yellow.
